Statement Means Unlimited Aid But Not Declared War, Washington Officials Say

Favor Convoys

Growing Pressure For Action on Delivering War Supplies

Washington, May 5 (A)-President Roosevelt's declaration that the American people "are ever ready to fight again" for democracy was interpreted in high administration quarters today as carrying a new promise of virtually unlimited assistance to nations re-

This view was taken by some members of the party which acompanied the President to Staunton, Va., where he made the statement yesterday in dedicating the birthplace of Woodrow Wilson as Iraq oil fields which supply the empire's Mediterranean fleet. a national shrine.

In Washington, Senator Nye (R., N. D.) commented that "if the President is making a feeler for a declaration of war he will be quickly surprised to see that the people of America do not want to

Officials in the presidential par-ty noted, on the other hand, that he did not say Americans were ready to go to war and drew a distinction between that and his actual words. In the present instance, they said, "fight" was a broad term covering strong ma-terial support of democratic nations rather than military involvement in the war. While the President spoke only

principles, developments in Washington indicated a growing pressure for further specific action on the problem of delivering war supplies to Britain, and the whole subject apparently was due for an carly and thorough airing in the Senate.

Herr Hitler's Reichtag speech were Wilmington, Del., Lebanon, seemed to me to be the absence of Pa., and Morristown, N. J.

"We are meeting here today to express the bitterness which Nazidedicate a new shrine of freedom, dom feels because of our aid to Britain and to threaten us. But faith that is in us-a simple faith the freedom of democracy in front yard.

'It is the kind of faith for which we have fought before, for the ex-istence of which we are ever ready to fight again.

Woodrow Wilson's career, the President said, "was a triumph of the spiritual over the sordid forces of brute strength" and he dedeclared that "physical strength can never permanently withstand the impact of spiritual force.

Furthermore, ne said, Wilson "taught that democracy could not survive in isolation. We applaud his judgment and his faith."

President Roosevelt's declaration that the American people "are ever ready to fight again" for democracy. The German leader didn't need that reminder however.

Home Top Rating in Two Competitive Events for School Groups

Atlantic City, N. J., May 5 (P)-With Leopold Stokowski leading them 6,000 high school musicians from six eastern states took part in the grand finale of the two-day Eastern Music Educators' Music Festival Saturday night.

In the competitions no groups or individuals were declared winners, but were given "ratings" by the judges. Class 1 ratings were awarde performers scoring 95 to 100 per cent; Class 2 to those credited with 87 to 94 per cent, and Class 3 for 80 to 86 per cent. Ratings announced by the judges today included:

A Cappella choirs: Class 1—Kingston, N. Y.
Class A bands (schools with encollment over 750).
Class 2—New Rochelle, N. Y.

Eighty-five singers in the A Cappella Choir, eight vocalists and High School returned victorious of Iraq., was reported in London from Atlantic City, N. J., on Sunday where they participated in the help as Iraq's forces battled with National Music Competition Festhe British garrison at Habbani- tival. It was the second year that the Kingston choir has been given a one rating at the nationals. Last year the choir received a one rating at Rochester. Three of the eight vocalists received one ratings and each of the others placed with ratings of two and three.

the direction of Leonard H. Stine was given a one rating on both reading and singing. So far as could be ascertained this morning it was the only chorus to receive one ratings on both tests.

There were over 50 choirs enrolled. All were entered as a restate final competitions in the 10 states represented at the national competition. Both the authorities and the judicators make it a policy to avoid having any one group named as champion but Mr. Stine was told by the judges that the Kingston choir (Freeman Special News Service) gave the top performance, although several other choirs also The most impressive point about received one ratings. Largest Cypress Tree Is 3,500 Years Old

ORLANDO, FLA .- The world's largest cypress tree, called "The Senator" or "The Big Tree." grows between Orlando and Sanford. Estimated from water marks on its trunk to be 3,500 years old, it stands 125 feet high. It is 17 feet in diameter at the base and the first limb is 75 feet from the ground.

To Be Militant

(Continued from Page One)

very narrow and intolerant of the beliefs of others who differed from "The ration" them, the Americans of the colon- persecution is wrong at all times ial era were deeply spiritual and by whomsoever committed because supernatural in outlook. Although it denies to man the rights which there is no causal connection, God has given him and which there developed and spread in our therefore, are inalienable. Theredemocracy, materialism irreligion the persecution of Jews in Gerand atheism. The probable cause many, in Russia and in the United was the inroads of naturalism, so States. We likewise condemn the prevalent in both England and persecutions of Christians; but in France of the time; it may have both instances on rational grounds been the ever increasing interest and not because of ties of religion in scientific skepticism-in any or blood. This subject could be event there was a general secular- developed to great length. In inizing of the political process.

Christians-the predominant interest was other-worldly but as naturalism and materialism spread the aim of the teacher in the early 19th Century became primarily an education for citizenship and for this life-this gradually was increased to exclude religion entire-

"Horace Mann, rationalistic educator, founder of the so-called non-sectarian public school as we of morality now know it, which is only a little more than one hundred years old. said: 'Education should be adopted to the democratic and natural rather than to religious ends' and consequently the State is justified in excluding all religious teaching from the class-room. This was completely accomplished by the end of the 19th Century.
"For the past 20 or 30 years,

John Dewey, professor at Teachers' College, Columbia University, has stood above all others in American education. He has moulded the minds and directed the thoughts of hundreds of thousands of teachers. Dewey regards man as the product of evolution: he denies the existence of a soul; he states that we are the blind results of our experience; that we are constantly changing and that there can be no fixed principles of morality; life is struggle, survival, adaptation and adjustthere is nothing supernatural, hence no God; religion and the notion of the supernatural is medievalism.

are the results of ignorance of "Modern man science and culture, and the inability to understand the universe. naturalistic. Dewey and his satelbooks have completely dom-

so that you may the better appreciate the back ground of our present day opinion. You, who read the newspapers and magado not actually deny his existence. For example, H. G. Wells popularizes in the fields of biology and history, avidly read as a best seller, was quoted as saying that if there is a God and if He could stop this war and did not do it, he (Wells) would spit into His wizened face. While we shudder at the blasphemy there are those our citizenry, who are so thoughtless as to fail to realize that wars are of man's making. the result of the exercise of his free will, and that if God has given him free will, man can do evil as well as good. It is also the result of placing God on our level, of thinking that things are the same in God's sight as they sometimes appear to us to be. You will probably be able to multiply instances of similar character from your own experience in reading

Modern man has no fixed principles, he knows no absolute truth. Emotionalism and self-interest dominate his judgment and action. You will recall that recently our so-called "liberals" referred to Communism as a noble experiment. It was considered smart to be a leftist, a pink, at least. Then Stalin made a pact with Hitler and overnight our liberals were all opposed to Communism. The party-line is anti-war, and all the 'intellectuals' are isolationists; the party-line changes and they all become interventionists.

Communism is wrong today, always was and always will be be-cause it dethrones God and denies the dignity of man; it is essentially wrong; not accidentally wrong because Stalin made a pact with Hitler. Since Hitler became a persecutor, our columnists, magazine writers and radio commentators have burst with indignation.

Now Many Wear

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FAS. TEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "plate odor". (denture breath). Get FASTEETH at any drug store.—Adv.

What is their reacand destiny of man. Even though tion to Russian persecution to-

"The rational attitude is that growth of fore, we as Catholics, condemn ternational affairs, solemn treaties "Our educational aims are al. are regarded as 'scraps of paper, ways dominated by our philosophy of life. Accordingly, the aim of the Colonists was to make Christians, the product of character as scraps of paper, when their violation is deemed expedient. The principles of international law, hallowed by years ternational law, hallowed by years of observance are set at naught. The pledged word of the politician seeking office is laughed off after the election. We are all familiar with the honeyed words of the office-holder, who by a series of changes of position arrives at a stand, which he absolutely repudiated before his election. Truly with all these men there is absolute truth—no fixed principles "In justification of their con-

duct modern men deny that there is any universal standard of morality. In other ages men boldly committed sins of avarice, lust anger, envy, but they admitted that in doing so, they were doing something that was wrong, something that was against the best in their natures but today men hypocritically deny the existence of sin and evil. Sin, penance, satisfaction are outmoded terms. Sin is social unfitness or disease, hence not blameworthy. If there is no accountability for sin, there can be no reason for penance or satisfaction. Our modern education is based on the principles of selfexpression. And by self-expression is here meant expression in disregard of law, in opposition to conscience - an outmoded word. Man's mastery of himself, by the subservience of his lower nature to his higher, by acts of self-denial, by taking up his cross in imitation of his Divine Master -

'Modern man has divorced civil authority from dependence on God. On the specious plea that religion The basic interests in education is a personal matter, the social are scientific, social, economic and order is dominated by irreligion. Two standards are set up. Men lites, Kilpatrick, Thorndyke and who in private life would not lie Rugg, by their teaching and by or steal have no hesitancy in publice office to follow the dictates their books have completely dominated American deducation not of account 'graft' in any of its relation in the many of account 'graft' in any of its var.

The books have completely dominated American deducation not contain the many of account 'graft' in any of its var.

The books have completely dominated American deducation not contain the property of the second in the property of the property

you will, all have a general tend-ency to ignore God when they offert

We, Catholics, constitute by far the largest religious group in the United States, and in proportion to our numbers probably the least influential in moulding the opinion of the country. We are approximately one-sixth of the population of the country and by every principle of fair play should have a very potent influence on the thoughts of our country. Is lack of influence attributed to unfairness on the part of our non-Catholic neighbors? I think not. In my opinion the day of narrow minded bigotry has passed in this country. Am I pleading for more Catholics in political posts? My answer to that is that there too many Catholics whose lives are a reproach to us and a scandal to the Church. There are too many of a questionable type who occupy petty posts as public

servants or as political bosses but few, very, very few in the policy making offices of the nation. What I am asking for is that we Catholics insist that our philosphy of life be given a chance to function in the public as well as in the private life of the nation. Whose fault is it that this no so? Primarily our own.

What then is the challenge to us American Catholic men today? think it is directed to our intelligence and to our zeal.

"Our basic philosophy is known us all — Man as originally to us all created by God was physically perfect, emotionally adjusted, intellectually brilliant, and volitionally responsive to his intel-

'By Adam's commission of original sin, man's emotions became disorder, his will weakened, and his intelligence darkened. That, despite the fall of human nature in Adam man still is gifted with wondrous dignity; that, although man possess in common with the FALSE TEETH brute, a material body, he has the God-like attributes of intelligence With More Comfort He is a person. Because of his and free will. He is not a chattel.

Each f us, humble as we are, is us on every side is that it robs us a call of greater or less imporread the newspapers and magazines, who listen to the radio, who attend the movies, (and who among us does not,) will realize that we are reaping the harvest, in our personal or in our political. that we are reaping the harvest, sown by Dewey and his associates because all these instrumentalities of the spread of information, opinion, propaganda, call it what opinion, propaganda, call it what

not merely a building; not merely an insurance company to guarantee our salvation; not merely a system of theology for learned pundits; not merely an association of individual: with a common in-terest, even though that interest be other-wordly; not merely a perfect society; in a sense the Church is all of these things. But all these are attributes of an organization—and the Church is a living organism; she is Christ living today 'n the world. He is our head-therefore He is with her all days guiding her authoratively and infallibly to the end of the world. This is our philosophy of life.

"Having so exalted a philosophy of life and realizing the sore plight of our country for such a philosophy why do we not energize the United States with it? Because we are not sufficiently conscious the means for increasing our great, knowledge. To be alert, intelligent, well-informed progressive Catho-lics we must know the Catholic Church in action-to do this we must be readers of the Catholic

press, not occasionally but habit-ually must read one for more of our splendid Catholic periodicals. "We cannot expect that the Catholic view of life will influence the life of our country when the the life of our country unless we ourselves know it and live it.

"If the first challenge to us as Catholics is to our intelligence, the second is to our zeal. This mystical body of Christ-the Church acts toward God in the universal act of worship, known as the Mass. We corporately offer to God our gifts of bread and wine, symbolic of our unity and solidarity, for the bread is made up of innumerable grains of wheat compacted and the wine of the juice of countless grapes, inseparably united, even as we as cells of Christs mystical body,—and we ask Him to accept these symbolic gifts and He with God-like power and love changes our gifts in a flash into the Body and Blood of His Adorable Son, so that we may then offer Him, a gift worthy of His divine majesty. Not content with receiving such a gift from us, He, in turn, as He did this morn-ing gives to us of the gift we have offered, this Body and Blood Son for our food and our

"The Church acts toward mankind in the manner described by the late Pope Pius XI as Catholic action. The Pope defined Catholic action as the participation of the laity in the apostolate of the hierarchy. Because of our membership in the body of Christ it is our duty to exercise Christ's apostolate, es-

of which he could never have never wordly but other-wordly; be great, it must be so by reason sonality of Christ. If the average known and to which, therefore, he never political, but religious. This of the fact that it boasts of a Christian man or woman would could never have aspired—a participation in the divine life of God Catholic thought and action will and I am using the term great—not be reflected in the natural orness, not in a wordly sense—not as sacred name than they would of the nature of man—the state we call sanctifying grace.

"By sanctifying grace a man beciples are truly to activate us, called the Church. You know as a common-place of biology that the human body is composed of an exceedingly large number of infinite."

"By sanctifying grace a man beciples are truly to activate us, then surely will we be better men, frank in our dealings with a common-place of biology that the human body is composed of an exceedingly large number of infinite."

"By sanctifying grace a man beciples are truly to activate us, then surely will we be better men, frank in our dealings with our fellow-men and honest in policie."

"By sanctifying grace a man beciples are truly to activate us, then surely will we be better men, frank in our dealings with our fellow-men and honest in policie."

"By sanctifying grace a man beciples are truly to activate us, then surely will we be better men, frank in our dealings with our fellow-men and honest in policient thought and action even to the sacrifice of personal agriculty to the Rules and Constitutions of the Society. If he is grandizement and party success.

Catholic Women Hear of Christian Hope and Courage

Religion as an agent of hope and optimism was stressed in a talk by the Rev. Joseph Connor of St. Mary's Church at the Communion breakfast of Court Santa Maria 164, Catholic Daughters of America, in the Stuyvesant Hotel yesterday morning.

A group estimated at 100 attended Holy Communion at the 8 o'clock Mass at St. Mary's Church and most of them attended the breakfast later.

Father Connor, whose topic was "Christian Optimism," told the group that the religion of Christ is basically a religion of hope and optimism. It regards man as he is; wounded by an original catas-trophe, but still fit for redemption and renewal.

"Christ's religion takes the world with its inequalities, pain and suffering," continued speaker, "and while it tries remedy, it tells us they can used as stepping stones to God and eternal happiness.

Christ conquered on Good Friday, he said, and "we also were reached on our Easter Sunday only by the patient acceptance of suffering and imitation of Christ. Grand Regent Kathryn Liscom welcomed the group at the outset and a short program followed.

Vocal selections included "My Wild Irish Rose," by Ann Cuff 'Ave Maria" by Kathryn Carchidi "The Last Rose of Summer" by Winifred Entrott and selections from "Snow White" by Patsy Zaccheo. They were accompanied by Mrs William Reiser on the

That, said the ambassador, is the attitude of the British people today. It is the attitude of a growing multitude of people in many nations. And when it is a little stronger,

A sort of hemispheric music festival was scheduled long ago for this first week of May. The plan was to devote one day of National Music Week to inter-American

wave of concerts and recitals in the various | ANGRY OBSERVER American republics for the enjoyment of all.

War news and defense activities have made it harder for this pleasant interchange of entertainment to catch the public ear. Yet the project was well worth planning and the results doubtless will be good. There is already a good deal of inter-American music on the air, some good, some not so good, but all potential aids to growing understanding of one another by the peoples who have created it.

ALL-OUT INDUSTRY

Not only does this country want the mines producing coal in adequate quantity, without interruption, but it wants the whole industrial machine functioning more smoothly and

Industry has done well, everything considered. But it will have to do still better to meet the pressing needs of the times. This is a war of machinery and machine products, and Britain and America are competing with a system that has had several years' start of them. Our industry alone, when it gets going, can produce more of the things needed than all the rest of the world together. But the catching-up time is hard.

America "expects every man to do his duty," wherever he is or whatever his place in the vast organization. Our national front is the industrial production line, and there has to be continuous operation behind the line, too, to bring up the materials.

No more strikes! Alternate methods must be used where there is trouble. Otherwise Britain and America may both "miss the

There is a tide in the affairs of men which washes up an awful lot of junk on the beach.

Timely text: "Work while it is called today, for the night cometh."

THAT BODY OF YOURS

By James W. Barton, M.D.

Registered in accordance with the Copyright Act.) WE SHOULD REST OR EAT WHEN TIRED

Some months ago I spoke of a drug, benzedrine sulphate being used by some students to "brighten | Ellsworth and family. them up" during the writing of examinations, It is also being used to relieve tiredness or fatigue in those who find they must be bright and alert for some special occasion. And some overweights are in Kingston. using it to reduce their weight because it stimulates all the body processes.

Now, we all get tired at times and the best way to relieve fatigue and get back our energy is to lie down and rest when this is possible. The taking of a drug to "pep us up" should not be done as a regular thing. Anything that peps us up and gives us false energy must be paid for later because Nature pays all her debts.

The tiredness or fatigue that some individuals feel at 11 o'clock in the morning is not due to any physical or mental work but to eating a 'small' breakfast, because they have no appetite in the morning or do not get up early enough to have time to sit down to a proper breakfast. This same 'hurry" prevents them from taking time to establish a regular bowel or intestinal habit. They are thus in a constipated condition with large amount of waste lying in the lower bowel. This large amount of waste constantly presses against the little nerve endings of the bowel causing tiredness in the brain. This was proven by Dr. Walter Alvarez by filling the lower bowel with absorbent cotton and

studying the result. Others feel tired at 4 o'clock in the afternoon because they eat a very light lunch. It is lack of food, hunger, which causes the tired feeling.

I have spoken before of the work of Drs. Haggard and Greenburg, Yale, who were able to prove that the same amount of food given in five servings instead of three prevented the midmorning and midafternoon fatigue. Workers were able to do 15 per cent more work by simply eating "part" of their lunch at 10:30 a.m. and part of their evening meal at 4 p. m.

The thought the: is that when we feel tired, instead of taking medicine to stimulate us, we should rest, lie down if possible. If unable to rest, then eating a little food-candy, banana, orange, some crackers,-should give us relief from fatigue. We should not be ashamed to lie down and rest

for five to fifteen minutes any time we feel tired. Eating Your Way to Health

Send today for Dr. Barton's helpful booklet entitled 'Eating Your Way to Health' (No. 101), containing many useful suggestions in following an allround diet, foods rich in starch, fat, protein, minerals and vitamins, proper number of calories per day and the like. Literary Guide

By JUHN SELBY

Spring 1940 By Stuart David Engstrand

The Nazi "conquest" of Norway has not been better described so far as I know, than Stuart David Engstrand has described it in a novel called "Spring 1940." This is because of two things, chiefly. Mr. Engstrand knows in-Mr. Lewis who accepted the po- timately the materials he uses, and he writes beautifully. So well, in-

most swoons at the beauty of his own words. There is a third consideration. It is also interesting to recall which is that he has been able to that in April of that year the senties including food, but the maxi- ior class of the high school met read like an imaginative situaand elected the following Class tion, Most Americans of Scandi-For the privilege of enjoying a spot of liquor the bomb-harassed spot of liquor the bomb-harassed lian. CHANGE

We Americans, it develops, have to get used to inconvenience of many kinds. And gosh, how we dread it!

We naturally want to keep on doing things we are used to, enjoying the old privileges of a free and insistent people. And in time of stress and obstruction, we expect the army and navy to clear the way. We want things like these, for example, in the words of Ad-

"That our ships roll down to Rio and back, with no enemy molesting them but winter and rough weather;

"That our freighters put out, and return from Sydney and Singapore, from Batavia and Manila and Hong Kong, with unbroached

back, no man making them afraid." But it can't be done. Not any more, in these times. Defense replaces free adventure. Life is more important than the right to travel and carry. "This defense program is so enormous," says Donald M. Nelson,

Negress Is Held On Arson Charge

Helen Bennett Is Arrested Following Morning Fire in Ellenville

Helen Bennett, 31, negress, formerly of South Carolina, but who has been making her home at 202 Canal street, Ellenville, for some time past, was arrested by Ellenville police Saturday follows ing an early morning fire which damaged the interior of the twostory house in which she had been living. She was arraigned before Police Justice Herman Cohen, who committed her to the Ulster county jail to await the action of the grand jury on a charge of arson first degree.

According to the police the wo-man had been occupying the up-stairs apartments in the house, is a stucco building just east of the former Cox Bros. store building on Canal street, and became enraged because a white man who also had been making his home there had left her. The fire, which started in a

closet upstairs, had made con-siderable progress before it was discovered, about 4:45 Saturday morning. It had already worked through the floor and was threat-ening the first floor rooms when the alarm was given and the firemen called to the scene

An elderly couple, Mr. and Mrs. Goldberg, were taken from their rooms on the first floor by Policeman Robert Mance and were re-moved to the Veterans Memorial Hospital for treatment for shock. The police, who later arrested the Negress, said that after setting fire to the house, she left without taking trouble to awaken the Gold-

15 Arrests Here Over Week-End

Majority of Cases Are for Alleged Traffic Violations

Fifteen arrests were made on Saturday and Sunday in Kingston by the police department, the majority of the cases being for alleged traffic violations.

Those arrested on charges of passing red traffic lights were Matthew Hopp of Jersey City, Christian Nunanan of Port Richmond, Jack Mulford of Fayette-ville, who forfeited bail by not appearing in police court today. George Hoffman of Wilbur avenue Theodore Richard of New York, Philip DeGregari of Glasco and Michael Strawgate of Lounsbery Place, had their hearings ad-journed until later.

Leo Katz of Catskill charged with speeding forfeited bail, while Spencer Ennist of Lucas avenue, charged with parking in a fire zone, has his hearing held open until later. Martin Candino of Mrs. Gerald Howland, Ida Eten

NEW PALTZ

New Paltz, May 3-The kindergarten pupils of the VandenBerg School of Practice visited the Half Moon Farm on the New Paltz-Tillson road and the Eller farm on the Springtown road one day the past week. The visit was made in connection with the dairy project, which the kindergarten is now taking under the supervision of Gertrude M. Thompson. The children watched the process of bot-tling the milk at the Half Moon farm and had a lunch of milk and crackers and while at Eller's they had their pictures taken with the cow that went to the World's Fair. Last Thursday the pupils in the fourth grade and ten of the fifth graders enjoyed a bus trip to New York. They visited Metropolitan Museum of Art and ate lunch in Central Park. Members of the sixth grade attended the lecture by Dr. Clyde L. Fisher in the Normal School auditorium last week Dr. Fisher's illustrated lecture was called "Short Visit to the

CAME L-THE CIGARETTE OF COSTLIER TOBACCOS

• VITAMINS for public morale! Vitamins for investment morale! Vitamins for America's defense and growth!

The most important single producer of these vitamins is the Construction Industry.

Construction is all of us. It is a family planning its new home. It is a bank making a loan. It is a plumber installing a bathtub. It is a steel worker battering a rivet head. It is an artist designing a wall paper.

Construction is still a community effort, working in its birthplace, improving its birthright. Construction is local in its bigness. National only in its forthright American character.

There is no man, woman or child or business whose daily life is unaffected by Construction. More money finds its way into completed Construction than all other forms of investment combined.

Without benefit of ballyhoo, Construction is hammering out its gigantic emergency defense job of two and a half billion dollars. And without pausing in stride its leaders are carrying forward America's permanent line of defensehome-building.

The miracles of Construction are legion. Time may march in measured tread but Construction whips it through a century in six weeks. Rushing rivers require eons to cut through a mountain range. Construction needles the solid rock and pushes its rivers through.

Construction is more than a brilliant way of overcoming the obstacles of nature. It is the mighty tide of America.

VITAMINS IN CONCRETE AND STEEL

Initiative, freedom, opportunity-these are the real vitamins of Construction and of all American industry. They provide the driving force for the individual to go aheadachieving for himself and at the same time contributing to the welfare of his neighbors.

Construction is a many-sided industry. It has a direct relation to your community no matter how big or how small or where located. For an illustrated, high-lighted story of the whole industry, see the 32-page supplement now appearing in Nation's Business. If you are not a subscriber, send 10 cents for reprint of "The Case for Construction." Or better still, send 25 cents for a full copy of the April issue.

Cooperation Saves **New York Onions**

Formaldehyde Procured to Aid Farmers

Ithaca, N. Y., May 5 - Quick action by extension officials of Orange county, the New York state college of agriculture, the United States Department of Agriculture, the chemical priorities committee defense commission, and commercial producers of formaldehyde has prevented a ser-ious threat to New York state's onion industry, it was revealed today. The threat was removed

in less than a week.
It started when C. C. Davis, county agent of Orange county, wired the college of a shortage of formaldehyde, on the eve of planting the onion acreage. Orange county grows about 7,000 acres of onions, and is said to be the greatest onion center in the east-ern part of the country. Much of the crop is planted on land badly infected with the onion smut

The use of formaldehyde is the only known method of control, and the general practice is to use about one and one-half gallons an acre. Some of the growers had their formaldehyde supply for the season, others did not. Davis wir-ed that they needed it within the next ten days, or they would not be able to grow their usual acrethe demands of national defense Chinese adopting an appeasement had requisitioned all supplies of policy toward the phenomenon.

Bob Feller Seeks Fifth Win Today Scoreboard **Against Senators**

Yanks Lose, Trail Indians by 3½ Games; Cardinals Rally to Beat Braves; St. Giants Trim Cubs

(By The Associated Press) Bobby Feller is due to go back Pittsburgh 6 today, which is enough to make American League leaders a good bet to run their winning streak to 11 straight against the

Since that surprising kayo the Chicago White Sox hung on his chin opening day, Master Robert has won four starts. Twice he has pitched six-hit, twice eight-hit ball—which, by the application of a little grade-school arithmetic, shows the young fireballer has al lowed an average of seven hits

A pitcher who sets the opposition down with seven hits usually is deserving of more than a mere agate line in the box score. It can hardly be a coincidence, therefore. that in running their victories through 10 straight—the latest a 12-4 rout of the Senators yesterday-the Tribe's grade-A hurling staff has yielded only a fraction more than seven safeties per con-

The batting support supplied Messrs. Feller, Milnar, Smith, Harder and Co. also has been noteworthy. Hitting neld the upper hand yesterday, in fact, for whil Smith and Clint Brown, his relief man, were being touched for 11 hits, the Indian sluggers came through with 15 that included a six-run outburst in the eighth against Bill Zuber, a former Clevelander. This hoisted the team hitting performance to better than 10 safeties a game during the

The Indians' hitting, with every man but the pitchers chiming in, set the keynote for the American League, where the winners runs in each case ran into double

Athletics Score 17

The Philadelphia Athletics set the day's high in their 17-11 vic- STANDINGS tory over the White Sox. The A's, aided by four Sox errors in the first inning, got five runs for a starter; had a 12-4 lead at the Montreel 13 end of the fourth, and picked up Jersey City10 another five in the seventh as they ended a seven-game losing streak.

The New York Yankees, still in second place, fell three and a half games off Cleveland's pace when Syracuse 6 big Buck Newsom set them on their collective ear, 10-1, with a five-hit pitching job. Bobo, who didn't walk a man and fanned four in his first full game, also batted in a couple of runs and got homer help from Rudy York (his sixth) and Billy Sullivan.

up his first victory of the year as the Boston Red Sox, mainly on big inning, thumped the Browns, 11-4. Grove allowed eight hits, while Boss Joe Cronin's douwas the only extra-base blow of the Sockers' five-run fourth.

Rookie Stops Reds

A rookie pitcher, Tom Hughes, was the day's standout performer in the National League. The 21year-old Philly nurler set down the World Champion Cincinnati Reds, 3-0, with three singles, only two Reds getting as far as third. The front-running St. Louis

Cardinals ran their string to nine in a row. Held to six hits by the Braves, the Cards bunched five of them in the eighth against Man-uel Salvo for all their runs and a 3-1 victory. An error that paved the way for

four unearned runs, three of them on Elbie Fletcher's homer, helped Hamlin his first deteat.

en when the New York Giants, score. While Cliff Melton was going the route for the first time on an eight-hitter. Babe Young led the winners' attack with a threerun homer and two singles.

Softball Practice

A practice for all members of Immaculate Conception softball team will be held at Hasbrouck Park this evening, starting at 6:30 o'clock. All players who wish to play this season are requested to attend. Following the practice an important meeting will be held at the school hall.

Tourney Starts July 15 New York, May 5 (AP) - The New York state semi-pre baseball tournament will be held in New York, starting July 15, it was announced today by Ray Dumont, president of the National Semi-Pro Baseball Congress.

ing flower with a golden center, bordered by maroon, it makes an ideal plant for ribbon planting.

Giant marigolds are now obtainable in carnation and chrysanthemum flowering types. Best of the gardeners may well be grateful chrysanthemum types is the silver for the breaks which have given medal winner Goldsmith, which such attractive new forms to a bears globular flowers with inflower which responds so grate- curved petals, borne on long base branching stems three feet tall.

Spry, the silver medal winner, is a miniature form of the dwarf double marigoid of dark maroon double variety. double variety Harmony. Growing which in the sunlight has a scar-in compact 9-inch bushes, producted let glow, justifying its name.

Beets Lose Flavor Soon After They Are Pulled

Beets are among the foods which only home gardeners can enjoy at their peak of tenderness and flavor. Freshly picked beets are among the richest of vegetables in sugar content and as in sweet corn the sugar begins to change into starch, and flavor to be lost, when the roots are pulled. Cook in half an hour for supreme quality

They contain vitamins A. B. C and D, 209 calories a pound, pro-tein 1.6%, fats 0.1% and carbohy-drates 9.7%. Favorite vegetable of the Russians, American home gardeners have much better varieties than the Russians, and can grow them to greater perfection.

Thin sowing is not so important with the beet, in fact it is almost impossible to do this as the seeds so-called, are really collections of seeds in a single husk and will result in bunches in spite of anything the planter might do to pre-A rummage sale is being conter the plants have reached a dueted this week at 614 Broadway growth large enough to be pulled for greens.

Where baby beets are wanted Aid and Missionary Society of the to cook leaves and all, the plants Lutheran Church of the Reshould be left two or three inches apart in the rows. When the larger beet for buttering or pickling is desired this distance should be increased to 6 inches. It is a good idea to pull every other plant, us-Kenneth Archer of this city is ing them for greens. The remainnow associated with M. Schwartz ing one will develop into baby In one morning recently 85 & Co., of Poughkeepsie, it was beets when they may be pulled, announced today by an official of every other one again, and those still remaining in the ground will grow into the larger varieties.

Half an Hour from Harvest to Serving Is Best for Beets

A help to germination when planting is to tread the soil firmly around the seeds. The date of planting is as early as the ground will admit of cultivation, and the beets may be grown the whole season long from the first of April to the first of August. It has become such a staple, in fact, that greenhouses have taken up their culture making them available in the win-

tertime as well. Roots 2 inches in diameter are considered the best for home use. Those that grow larger are oftentimes earthy tasting and some what woody. Select only the best seed possible, produced by a rec-ognized seedsman, to obviate the danger of poor quality plants.

Ex-Convict Held

New York, May 5 (AP)—Less than 24 hours after Advertising Executive Harry V. Maxwell was slain as he sat in a parked car with a pretty blonde dress model. a young ex-convict with a record of five arrests was charged with the crime. Booked as Morris Mardavich, 23, he described himself as a plumber's helper, but Assistant District Attorney Jacob Rosenblum said he was one of two men who shot and killed Maxwell in "a holdup, pure and simple The slaying occurred just before dawn yesterday outside the upper East Side home of Mary Jane Cassidy, 24, where she and Maxwell, 41-year-old son of R. C. Maxwell, head of the outdoor advertising agency of that name, had parked after visiting a night club The couple had been sitting there for several minutes, the model said, when suddenly the door on her side was flung open and a man slid in beside her. Another man, she said, opened the door on Max-The model said she then heard a "click, or something sounding like a pop-gun," and that her escort slumped against

Bakers Make Motor Fuel Automobiles using alcohol pro-

duced in a bakery are running smoothly in Stockholm, Sweden. As hard bread must remain in the oven until practically all the moisture has evaporated much more alcohol can be produced than when soft bread is baked, according to the bakers who conceived the idea. Automobiles are said to when gasoline is used.

SOCIAL ACTIVITIES

A Nursing Graduate

New York, May 3 (Special)— Miss Margaret E. Brody of Kings-ton will be graduated from the Methodist Hospital School of Nursing, Brooklyn, on Monday evening at the 51st annual commencement exercises in All Saints Episcopal Church, Brooklyn. She is a mem-

ber of a class of 35 young women.
The Rev. Chester C Marshall,
director of the hospital, will present the candidate and Miss Lena Oakley, principal of the School Nursing, will distribute diplomas and hospital pins. The address to the graduates will be delivered by the Rev. James Lee Ellenwood state secretary of the Young Men's Christian Association, New York. Baccalaureate services will be held tomorrow in All Saints Church, with a sermon by the Rev. Wilburn C. Campbell.

"Star-Spangled Banner" Available for Framing A "just right" style for summer

Replica in Key's Handwriting

"The Star-Spangled Banner" was born of a great American drama-the defense of Fort Mc-Henry in 1814.

The terrible day and night of September 13th, thirty British men-of-war in Chesapeake Bay poured shot into the fort that defended Baltimore.

Mrs. C. Ray Everett, Mrs. Rachel
Crow and Miss Florence Snyder.

o'clock. Articles for the fancy booth of the fair to be held October 15 will be received at this meeting.

Send 10c in coin for your set of THREE GREAT AMERICAN DOCUMENTS to Kingston Daily Freeman, Home Service, 635 Sixth Ave., New York, N. Y. Be sure to write plainly your NAME, AD-DRESS, and the NAME of the set.

Spinach Maligned

Newark, N. J. (P)—So you don't like spinach, eh. You'd be out of step in New Jersey, the WPA reports, citing statistics gathered while serving lunches in 188 high schools. In every county but one spinach was a popular dish. But as for string beans — they were as unpopular as spinach was supposed to be.

A BUTTON-FRONT DIRNDL STYLE

Marian Maria

s the dirndl dress-most provocative and youthful of fashions! Here it is—in a really delightful Marian Martin interpretation, Pattern 9713. Make up this frock quickly in one of the splashy new South American or Mexican prints; wear t for mornings in town or all day in the country. That buttoned closing down the front gives smart lines and lets you slip into the frock easily. An all-around band shows off your lithe, handspan waist, with easy fullness in the front-panelled skirt below. Use a merry touch of ric-rac or crisp ruffling around the square neckline and the bands of the brief puffed sleeves. The clear, concise dressmaking Chart simplifies ev-

Pattern 9713 mi 18 ordered only in misses' sizes 12, 14, 16, 18 and 20. Size 16 requires 3 yards 35 inch fabric and 1% yards ric-rac. Send FIFTEEN CENTS in coirs for this MARIAN MARTIN pattern. Be sure to write plainly your SIZE, NAME, ADDRESS, and STYLE NUMEUR.

Be first with new fashions for filled with facts about fabrics and And all that night Francis Scott accessories. Good Taste Today

By Emily Post (Author of "Etiquette," "The Per-sonality of a House," "The Blue Book of Social Usage," etc.

COLLEGE STUDENT ASKS EMILY POST IF HE MAY SHARE DANCE EXPENSES OF \$15-ROUND-TRIP GIRL

Only an established exception to convention, which so far as I know is lacking in the circumstances described in the following letter, could let me agree to this manpay-for-girl situation. And yet it is one of the meanest stumbling blocks to be encountered on the road to a good time, and be ob-liged to let stay there! The stumb-ling block has been run into by a young man who describes it this "Our college is giving a dance and some of our prospective dates' live quite a distance from here. In fact, in terms of cash, my girl lives a fifteen-dollar round trip away. Is this too much to expect a girl to pay all herself? Do you think I should at least try to share the expense? If yes, how shall I go about it?"

As I have said, this situation is impossibly blocked insofar as sometimes enclosed in invitations to out-of-town weddings. In other words, if instead of a railroad ticket a printed card were presented at the train gates-one half of it when going and the other when returning home and for by the committee, this would be a solution of the propriety question—but not unlikely to be possible for the committee's bud-

The only way that John as an individual can arrange for Mary's fare is, if his mother knows Mary very well, she might under one of many circumstances be able to send her a round-trip ticket. Otherwise, there is no answer that I know of except that Mary must provide her own train fare.

Ulster Park Reformed Church will hold a food sale at Van Aken's store, Friday, May 9 at 2 o'clock.

should one put it down? Answer: It is usually held in

the fingers and eaten immediately, but if you take two pieces you put the second one down on the plate in front of you. Or if you have eaten dessert on it, or if a finger bowl is on it, you put it down on Dear Mrs. Post: Six young wo-

men are going to a big city on their vacation. Does each one register for herself when they arrive at the hotel, or is it better if one of them takes care of the whole Answer: There is no rule about this. Very often there is one of a group who instinctively "manages" everything and perhaps even registers for all. If there is no such

in turn register for herself. (Released by The Bell Syndicate, Have you seen Emily Post's booket, "The Etiquette of Service"? Send for it today, enclosing ten cents. Address Emily Post, in care of Kingston Daily Freeman, Box 75, Station O, New York, N. Y.

Nurses' Practice Bill Amendment **Provisions Given**

Provisions of an amendment to Eating: Eight hours for grazing. the "Nurse Practice Bill" of 1939 Clinton Hotel Saturday, under dia definite deadline in the obtain-Favorite food: Tender grass and ing of licenses. The amendment clover herbage four to five inches provides that:

(a) Persons who failed to make Telegraph boys walk about application for license either as London ready to take telegrams a registered professional nurse or as a practical nurse may do so until July 1, 1941.

(b) The effective date of the law, when all who nurse for hire

must have one of the two of the above licenses, is postponed to January 1, 1942. (c) The Department of Education may admit to the licensing examination a graduate of a school

compete next Saturday with pie of nursing accredited in any other state, province or country who meets the equivalent of the New York State requirements as to age, character, citizenship, and

Bundles for Britain Campaign on Tuesday

A nation-wide campaign through its 900-odd branches for funds to aid London's worst bombed hospitals will be conducted by Bundles for Britain on Tuesday, May 6, with the Kingston unit cooperating with other units. The campaign, which runs concurrently with a similar effort in London under the patronage of Queen Elizabeth, will culminate in a oneday drive in which thousands of volunteer workers will participate. In the United States, both members and volunteer workers of the Bundles for Britain organization will invite citizens along streets of cities and towns, in the shops, theatres and other gather-

ing places to contribute to the fund, during the day of May 6. Funds raised in America will be made available to all of the 165 hospitals covered by the London appeal. The participation of Bundles for Britain in this annual campaign for the volunteer hos-pitals of London represents an expansion in its efforts in the United States to assist these institutions. Some 47 of this group have already been adopted by this organization and upward of \$150,000 has been cabled since January to help assure continuance of their vital services in the care of casualty and the treatment of other war emergency cases. In addition thousands of surgical instruments, pieces of hospital apparatus and supplies have been sent abroad to replace similar equipment lost or partially destroyed by enemy bombs.

U.S. Planes Are Shown Superior

British Test Battle Proves American Craft Better Than English.

AN AIRPORT SOMEWHERE IN ENGLAND.-The question of whether American-built airplanes are up to European standards has been answered.

In a roaring, diving sham battle arranged by the ministry of aircraft production for British, dominion and American correspondents, American planes gave a convincing demon tration of superiority.

Curtiss P-36s and P-40s were the stars of the show. The British call the older P-36s, Mohawks; the P-40s, Tomahawks. The Mohawk has a Wright radial air-cooled engine, while the Tomahawk has the newer

Allison liquid-cooled engine. Outmaneuvers British.

Because of its radial engine, the Mohawk outclimbed and outmaneuvered British Spitfires and Hurricanes. Whether the Tomahawk, with its liquid-cooled engine, could outmaneuver a Hurricane is ques-

A squadron leader who had served in a Hurricane squadron in France took off in a Hurricane, followed by hung, brother of a former Min- the Tomahawk for the first time a wing commander who had seen

The Hurricane chased the Tomahawk from dizzy heights, and seemed to be able to make tighter turns. But, as the pilot became more familiar with his machine, the Tomahawk

improved. It is definitely faster than the Hurricane level flights, and rapidly outclimbed it. Soon it began making tighter turns and perched on the Hurricane's tail roaring across the airfield more than 300 miles an

A high Royal Air force officer who witnessed the exhibition said the Tomahawk had given the better allaround performance. Even though the Hurricane seemed able to make slightly tighter turns, the Tomahawk was faster and a better climber, and these advantages would enable it to dictate what form the battle would take.

Over 300 Miles an Hour.

The Mohawk is credited with a speed of over 325 miles per hour, the Tomahawk with over 330. At the outbreak of the war, a Hurricane did 327, a Spitfire 367, but both have been speeded up.

Three other American - made planes showed their stuff.

A Douglas DB-7 bomber stood out because of its tricycle undercarriage. British newspaper men asked a pilot how it compared with Britain's hard-hitting Blenheim bombers.

"I prefer the Douglas," he said. "It climbs better, is more maneuverable and is lighter on the controls. The tricycle undercarriage is quite reasonable.'

Squat little Grumman and Brewster fighters also were shown. They have been assigned to the fleet air arm. One Grumman has already been in action off the Scottish coast. It bagged a Dornier "flying pencil."

Gives Security Number

For Income Tax-Wow! YOUNGSTOWN, OHIO .- A clerk at the Internal Revenue office helpfully filled in the income tax blank for a taxpayer; then told him how much he owed. It was a large amount and the visitor protested

The clerk checked again, and the answer came out the same. "But," protested the man, "they told me I wouldn't have to pay any-

The clerk, suspicious, asked for the slip earning statement the man's employer had given him, and found the taxpayer had read off part of his social security number instead of his earnings.

are now rationed.

New Memods of Serving Vegetables May Do Trick

Fresh vegetables are not apt to be prime favorites with men. Practically every man has a little black list of his own-vegetables which he just will not accept graciously. But before dropping those vegetables from your own list of menu possibilities, make sure that it's the vegetables themselves your menfolk dislike-and not just the way they have always had them cooked, heretofore. Perhaps a new method of serving, or some unusual trick of seasoning-is all you need, from a masculine point of view, to add appetite-appeal. Or, maybe it's the method of cooking that needs revi-

Vegetables today are of such fine quality that they deserve the finest treatment in the kitchen. There's a right method of cooking vegetables to conserve the food value, and do the most for flavor and texture.

Here's an unusual combination of two everyday vegetables, particularly good to serve with steak, or liver and bacon

Smothered Onions and Peppers (Serves 4)

2 tablespoons butter

3 cups onions (sliced) 11/2 cups green pepper (sliced) 1 teaspoon salt

Melt butter in a heavy skillet. Add onions and peppers. Cover. Cook slowly for 30 minutes. Add salt, and serve.

Sulfanilamide Giving Back Eyesight to Indians

Sulfanilamide is giving back to Indians eyesight threatened by tra-

In tiny clinics spotted throughout the West, public health and Indian service doctors are treating the dread eye disease which once meant blindness or patient treatment that might show results in six months-or three years.

Trachoma, which historians say Coronado and his Conquistadores Indian eyesight since.

to scarring and eventual clouding of the cornea, resulting in blindness.

The Indian service estimates that Kansas has 1,975 cases, North Carolina 67, Minnesota and Wisconsin 1,135, North and South Dakota 3,139, Wyoming 419, Montana 3,595, Oregon and Washington 739, Idaho 42, California 472, Nevada 429, Utah and Colorado 364, Arizona 8,325 and New Mexico 4,329, a total of 25,030 cases, but it concedes the existence of many more.

The disease is unknown among the Florida Seminoles and the Taholah tribe in the Neah Bay region of Washington, but wherever else Indians live there is or has been trachoma-30 per cent of Arizona's Navajos have it.

Spend Tenth for Research

Ten firms in the U.S. spent more than 10 per cent of their gross in- Washington, D. C. come on research in 1940. These Your Royal Highness included four chemical concerns.

Metallurgy, agricultural and organic chemical technology, petroleum, synthetic textiles, rubber and resins

It will not be comparable with the comparabl 1940. British, German and Russian investigations have been concerned specially with metals, coal and petroleum products, paints, plastics and foodstuffs. There is also an everincreasing awareness in American years. The success of nickel was brought about by the investment of \$20,000,000 in research. Twenty-four per cent of Armstrong Cork's sales are from new products developed within the last seven years. Johns-Manville's novel or improved products within the last decade are responsible for 43 per cent of its sales.
